

# ENVIRONMENTALLY FRIENDLY, INSIDE AND OUT.

Manson has been dedicated to making high-quality products that create comfortable spaces while protecting and preserving our environment. Our line of HVAC fiberglass insulation products are formaldehyde-free and **CERTIFIED asthma & allergy friendly**<sup>®</sup> and Verified Healthier Air<sup>™</sup> to ensure that products are more suitable for people with asthma and allergies and contribute to a healthier indoor environment.

## HVAC FIBERGLASS INSULATION

### AKOUSTI-LINER R

This rigid board duct liner provides both thermal and acoustical insulation, and is made from inorganic glass fibers bonded by a thermosetting binder. Akousti-Liner R is used in ductwork, ventilation, and air conditioning systems.

### ALLEY WRAP B

This fiberglass blanket provides both thermal and acoustical insulation, and is made from highly resilient inorganic glass fibers bonded by a thermosetting binder. It's available unfaced, or with either an FSK or PSK jacket, and is commonly used to insulate the exterior of ductwork.

### AKOUSTI-LINER

This flexible duct liner provides both thermal and acoustical insulation, and is made from inorganic glass fibers bonded by a thermosetting binder. Akousti-Liner is used in ductwork, ventilation, and air conditioning systems.

## DOING MORE FOR INDOOR AIR QUALITY

Manson HVAC fiberglass insulation products have been tested and certified by the **asthma & allergy friendly**<sup>®</sup> Certification Program, established by Allergy Standards Limited (ASL), and the Asthma and Allergy Foundation of America (AAFA) which identifies products as suitable for those with asthma and allergies.

Allergy Standards Ltd (ASL) works with global brands and educates manufacturers on the importance of improving indoor air quality. In addition to the **asthma & allergy friendly**<sup>®</sup> Certification Program ASL strive to improve lives by empowering people to create the healthiest possible indoor environment through science, education and innovation. Ultimately ASL aims to help people breathe healthier indoor air.

# KEY BENEFITS

## THIRD-PARTY TESTED

Stringent testing ensures all Manson products have little to no presence of harmful chemicals.

## BIO-BASED

Made with our patented ECOSE® Technology, a bio-based binder.

## FORMALDEHYDE-FREE

Uses no phenol formaldehyde-based resins.

## CLASS A FIRE RATING

A flame spread index of 25 or less and a smoke developed index of 50 or less.

## INSTALLER PREFERRED

Low dust and easier to handle, cut and install.

## INTERIOR COMFORT

Provides both thermal and acoustical performance making interior spaces more comfortable.

## SUSTAINABLE

All of our products utilize sustainable resources, such as recycled glass and sand.

## PERFORMANCE

Designed to help maintain temperature for better process control.

## EFFICIENCY

Helps to reduce operating costs and energy usage.

# THE SUSTAINABLE SOLUTION

In addition to featuring sustainable materials, products made with ECOSE® Technology:

Low dust

Contribute to LEED credits

Reduce carbon footprint

Comprise more than 50% recycled glass

Contain no added formaldehyde

**TESTED AND CERTIFIED**
